SUMMARY

A detail-oriented Full Stack Developer with hands-on experience building dynamic, responsive web applications across the stack. Skilled in frontend and backend development, API integration, and secure user authentication, with strong proficiency in JavaScript, React.js, and Node.js. Known for quickly mastering new technologies and delivering efficient, user-focused solutions to complex problems.

WORK EXPERIENCE

Back End Developer | Clan

Lagos State, Nigeria | Jan 2026

Integrated with various third-party APIs to extend platform functionality and streamline data exchange, while enhancing application security through improved authentication and data protection practices. Built and maintained backend services and APIs to support core application features.

Frontend Developer Intern | Jupita

Lagos State, Nigeria | March 2026 – August 2026

Developed responsive and scalable frontend solutions for a fintech platform transforming digital lending in Africa. Built reusable UI components, integrated REST APIs, and implemented features that improved application functionality and user experience.

Frontend Developer | CodeMatrix Consult Ltd

Abuja, Nigeria | May 2025 – February 2026

Engineered responsive and scalable web applications for secure digital platforms, leveraging reusable components and REST API integrations. Delivered frontend solutions across cloud, DevOps, and AI-focused projects with emphasis on performance and maintainability.

Frontend Developer (Internship) | Digit Information Software and Technologies

Lagos State, Nigeria | June 2023 – Oct 2023

Created and designed various email templates, vouchers, invoices, and other communication materials.

ADDITIONAL EXPERTISE Built backend services using Bun as the runtime, package manager, test runner, and script executor, working across strict-mode TypeScript on the API side and a TypeScript/JavaScript codebase on the app side, supported by a Vite, ESLint, and Prettier toolchain.

Implemented secure authentication with Better Auth, covering email/password login, OTP, magic links, two-factor authentication, and admin roles, with session management via secure cookies, a bearer token system for non-browser clients, MongoDB persistence, WebAuthn passkeys, and Google OAuth sign-in.

Connected and managed third-party data sources using Fivetran (including QuickBooks, Zoho Books, Meta, LinkedIn, TikTok, X, and Google Ads/Sheets) and Airbyte Cloud (including Google Forms and BambooHR).

SKILLS

Technical: Web Development (Frontend & Backend), Software Architecture, Vue.js, React.js, Angular, Svelte, PHP, Node.js, Express.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, MongoDB, SQL, Firebase, Next.js, Laravel

AI-Assisted Development: Skilled in using AI tools to generate clean, maintainable, and sustainable code, speeding up development while keeping code quality and readability high.

Soft Skills: Time Management, Adaptability, Teamwork, Creativity, Problem Solving, Project Management

EDUCATION

National Innovation Diploma in Web Development & Software Architecture Aug 2022 – 2024

SQI College of ICT, Ogbomoso, Oyo State
